Ingredients Introduction

AHA

AHA

It has a peeling effect on the dead skin cells that accumulates on the epidermis, which is involved in smooth removal of dead skin cells and shortens the skin circulation cycle to help smooth and healthy skin texture management.

It helps to prevent trouble skin though pore care by removing dead skin cells on the pores.

It cares to manage pigmentation such as freckle and helps to make bright and clean skin tone.

It acts to control pH of cosmetics by neutralizing the alkaline substance.

Pomegranate extract

It manages to improve skin healthy and helps to give vitality to the weak skin by containing citric acid, water-soluble vitamins (B1, B2, niacin).

It manages care of dead skin cells and conergence to provide refrehsing and tention to the pore, so it helps to care skin elasticity by preventing skin from loosing.

Lemon extract

It helps to make dull skin tone to be bright by containing citric acid and vitamin C.

It prevents to be drying and helps to make moist skin by keeping moisturizing effect by keeping moisture from evaporating.

As conditioning effect to the skin, it helps in skin soothing and vitality skin care.

THANK YOU

The slide features a light green grid background. On the right side, there are two overlapping green geometric shapes: a large, dark green triangle pointing upwards and to the right, and a lighter green, semi-transparent trapezoidal shape below it.
